DENTAL SCHOOL

Dental Implant Internship - Australia

About the Course

Clinical training is delivered every alternate month over four consecutive days from Thursday to Sunday at a highly esteemed dental facility in Sydney, New South Wales offering the latest in digital technologies with access to CBCT.

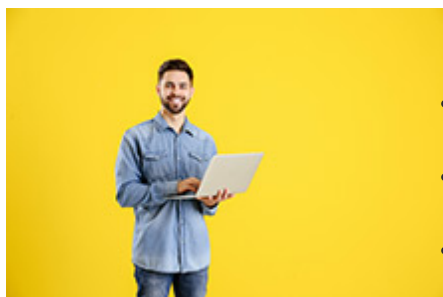

Module Outline

Course Structure

Students start placing implants from the first session with clinical training sessions involving single implant placements. Over the course duration in year one students will learn treatment planning protocols, single implant placement and restorations, multiple implant placement and restorations including occlusion and full mouth rehabilitation and finally bone grafting. Students will have the opportunity to work on patients under direct supervision and will provide the complete implant treatment plan from placement to fitting of the final restoration.

Programme

The fee covers:

- X fully restored with associated clinical and material costs.
- Over 160 hours of CPD.
- Over 200 hours of on-demand pre-recorded lectures.
- Downloadable books, articles, patient consent documentation and educational materials.
- Help with writing up your case log book which is signed off on completion as evidence of training for licencing requirements.
- Additional advanced clinical training sessions for more complex cases.
- Access to the Diploma and MSc degree from the UK University of Bolton.

Flexible Timing

With about 90% of the course being online learning, this allows you to take minimal time off from your working schedule. You will only need to attend 3 sessions in alternate months allowing you the maximum opportunity to treat implant patients.

Course Leader

Dr Chhoker is an internationally recognised implantologist with over 30 years experience. Dr Chhoker has been an educator in implants for over 15 years and has been extensively involved in lecturing and tutoring postgraduate dentists during this time.

Dr Chhoker graduated from United Medical and Dental Schools of Guys and St Thomas' Hospitals and then went on to complete a Masters Degree (MSc) in Implant Dentistry from the University of Warwick and was invited to become a member of the International Academy of Dental and Facial Aesthetics. Dr Chhoker has run successful practices in both Harley Street, London, UK and in Sydney Australia.
